

Remote	Front of Remote	Rear of Remote	Works With	Where it Plugs in
CXRC & CXARC			<p>CX Bass Amplifiers, Bass Station, Sub Station, PXA Bass Amplifiers, Hideaway, DXA Bass Amplifiers Early version of the Substation/Bass station remote looks exactly like a KXRC but has 1/8" jack and will work anywhere that CXRC will work. CXRC labeled on the top.</p>	
KXRC			<p>KX Bass Amplifiers, will work on all Kicker amps including ZR series and SI amplifier modules (excludes CX and DX amps). Will work on KX3 and X3I except the earliest version of X3I. KQ5 remote will work on all these amplifiers as well.</p>	
IQRC			<p>IQ Amplifiers, can control up to 2 amplifiers. This remote uses a crossover cat5 cable(not a regular network cable). Blue IQ label on the bottom left of face.</p>	

<p><b>Front Row Remote</b></p>			<p>XZDSP1 front row 6-channel digital signal processor, exclusive for Front Row Only. Front Row on top right of the face.</p>	
<p><b>Sum 8 Remote</b></p>			<p>8 Channel summing device. Exclusive to SUM8 summing device only. ZXSUM8 on top left of face.</p>	
<p><b>ZXMRLC</b></p>			<p>Works only on ZXMRLC. ZXMRLC on top left of face</p>
