KICKER® TECH

▶ INNOVATION

▶ IMAGINATION

FROM THE BEGINNING, KICKER HAS BEEN BASED UPON INNOVATION, FROM THE WORLD'S FIRST FULL-RANGE SPEAKER ENCLOSURE TO THE MOST MODERN AMPLIFIERS, SUBWOOFERS AND SPEAKERS ON THE MARKET.

▶ **DESIGNED & ENGINEERED**

KICKER PRODUCTS ARE DESIGNED, CREATED, ENGINEERED, TESTED AND VERIFIED FROM THE COMPANY'S STILLWATER, OKLAHOMA HEADQUARTERS.

▶ **TESTED FOR QUALITY**

MORE THAN 30 ACOUSTIC, MECHANICAL, ELECTRICAL AND QUALITY-CONTROL ENGINEERS IN SIX INDEPENDENT LABS WORK TIRELESSLY IN A 12,000 SQUARE-FOOT FACILITY. USING LAB-GRADE TOOLS FROM KLIPPEL™, AUDIO PRECISION®

AND OTHERS, WE BRING YOU PRODUCTS THAT LIVE UP TO OUR RIGOROUS STANDARDS OF QUALITY AND RELIABILITY. ONLY THEN DO WE SAY THEY ARE WORTHY OF YOUR EARS – AND OF THE KICKER NAME.

▶ UNMATCHED PRECISION

TIMING FORCED OUR HAND, AND WE TOOK IT FROM THERE. UNMASKED LIVE! AND ITS BI-WEEKLY ADAPTATION HAS BECOME MUST-WATCH VIDEO STREAMING TWICE A MONTH FOR CAR-AUDIO ENTHUSIASTS, BROUGHT ON BY THE ORIGINAL EVENT THAT OCCURRED IN 2020. THREE YEARS IN (AND COUNTING), EVERY OTHER TUESDAY EVENING FANATICS CAN LEARN ABOUT MOBILE AUDIO AND THE LATEST KICKER PRODUCTS AND INNOVATIONS.

▶ PRO CLASS

WE BELIEVE BASS SHOULD BE BETTER THAN JUST "LOUD." IT SHOULD HIT YOU IN THE CHEST AND TAKE YOUR BREATH AWAY. IT SHOULD BE CLEAN, CRISP AND SHOCKING - AND IT SHOULD LAST ALL DAY, NO MATTER HOW HIGH YOU CRANK THE VOLUME. KICKER'S IN-HOUSE ENGINEERING TEAM USES TEN ELECTRIC, ACOUSTIC, AND QUALITY ASSURANCE LABS TO BUILD EVERYTHING FROM THE GROUND UP - DESIGNING, TESTING AND MERCILESSLY TORTURING EVERY PRO CLASS PRODUCT.

THIS IS ART OF COMBINING EFFICIENCY, DURABILITY...AND RAW, SEETHING POWER.

KICKER PRO CLASS WAS BUILT TO A DIFFERENT STANDARD. THE ULTIMATE STANDARD.

WELCOME TO KICKER PRO CLASS.

SOLO X[®] L7X[™] FERRITE COMPETITION SUBWOOFERS

The legend returns! KICKER's Solo-Baric[®] L7X[™] brings new technology and unprecedented performance to bassheads everywhere. Offering next-level thermal management and tremendous power handling capabilities, the L7X features a massive ferrite motor, surrounding a hyper-extended pole piece for even better heat dissipation and a larger, more linear magnetic field.

The large Santoprene surround features KICKER's patented ribbed corners, facilitating a stable base for KICKER's signature square double-pressed pulp cone to travel at extremely high excursion. With 20 percent more cone area, the square L7X 12-inch comes close to the cone area of a 14-inch round speaker.

KICKER's continuous Forced-Air Cooling system increases the reliability of the SoloX by fighting one of the most common reasons for subwoofer failure – heat. As the cone moves forward, air is pulled into the gap and over the voice coil via specially made ports under the magnet, bathing the coil in fresh air. As the subwoofer moves downward, the air under the dust cap is propelled back over the copper-clad aluminum voice coil and pole piece, pushing hot air out through the ports. The cycle of hot-air-out-cool-air-in is repeated thousands of times per minute as the subwoofer plays.

The SoloX also features four unique terminals per DVC subwoofer. A single, spring-loaded 8 AWG terminal sits beneath dual 8 AWG terminal blocks, affixed with set screws. A superior option to direct lead connections, the voice coil receives increased voltage flow, thanks to full contact with the surface area of the terminal. The ergonomic "tri-wire" terminal also makes complicated series or parallel wiring more easily accomplished, eliminating the need to force multiple wires into a single terminal.

**NEW
FOR
24**

- POWER POINTS**
- ▶ Extreme, continuous power handling
 - ▶ Innovative Forced-Air Cooling[™] for playing louder longer
 - ▶ Field-replaceable cone assembly (sold separately)

speaker size: in, cm, power handling: watts RMS, impedance: Ohms. Power handling assumes typical music program with minimal clipping; varies with enclosure size. See your KICKER dealer for complete details. Based on measurements of 4Q models.

L7X15: SIZE: 15, 38	POWER: 2000	IMPEDANCE: 1 or 2 DVC
L7X12: SIZE: 12, 30	POWER: 2000	IMPEDANCE: 1 or 2 DVC
L7X10: SIZE: 10, 25	POWER: 2000	IMPEDANCE: 1 or 2 DVC

"The concept of the new SoloX is to take it to the next level. It is designed with very tight tolerances. It has more power, more stroke, more xmax and still has a field-replaceable cone. This new design allows the SoloX to be extremely loud, but also be extremely musical."

- KICKER President Steve Irby

L7XRK RECONE KIT

Using a unique surround compression system and bolt-on spider landing, the L7X recone kit gets you from blown to bumpin' in minutes!

What normally takes hours (or longer) for a professional to achieve can be done anywhere - by anyone - with the innovative design of KICKER's glueless, high-speed recone kit.

POWER POINTS

- ▶ Pre-Assembled Cone, Spider Pack & Voice Coil
- ▶ No Gluing Necessary
- ▶ Alignment Shims Included
- ▶ 1 Or 2 Ohm DVC Kits Available

SOLO X ORIGINS

There's a reason we compete. The ceaseless drive to learn, improve and ultimately – to win – is indelibly woven into KICKER's DNA.

KICKER rode the wave of car-audio fandom. We watched the KICKER Competition Group collect a seemingly endless streak of awards, earning trophy after trophy - championship after championship. Those were heady days... and the ride wasn't nearly over.

After making a limited-run version of the Solo-Baric® L7® square subwoofer for the Gates Bronco, a groundbreaking idea began to form – we can create something bigger. Something better, for competitors and daily-driver bassheads alike.

FAST FORWARD TO 2013.

As social media became increasingly popular, we learned that the basshead community was not only alive, but as passionate as ever. We experimented with ideas, threw them away and made something better. We scoured social-media discussion groups, looking for every burp, demo and hair trick we could find. We asked elite competitors their opinions, and then, during our first live virtual event, we unveiled it online to a record-breaking number of viewers.

WE INVITE YOU TO EXPERIENCE THE LEGEND FOR YOURSELF, FOR ONE REASON – WE MADE IT BETTER.

WARHORSE AMPLIFIERS

Warhorse amplifiers were born to compete. Built to run extremely hard all day and night, these ultra high-power amps are the product of years of research in the lanes - and the lab. Every aspect of the Warhorse line was re-assessed and re-imagined, then tortured mercilessly to ensure performance and the pinnacle of reliability, from the layout of the board to the rails to the Tiffany RCA connectors, everything about these amps will make a basshead smile from ear to ear. All this technology means big power, but don't forget big reliability! This no-holds-barred power plant is 100% KICKER quality, which means it passes every test for noise rejection, THD tolerances, frequency response, and of course - power output. This is the full package!

The KICKER Warhorse 3600.1 was built in the spirit of its revolutionary predecessor. This full-bridge, one-ohm stable amplifier features dual 1/0 power and ground connections, 4 AWG speaker terminals, and quad microprocessor-controlled cooling fans for fast, accurate, quiet cooling when you need it. Press the Competition Mode button, and never worry about gain matching multiple amplifiers again.

The WXA1000.4 is a full-range beast in its own right. Rated at 250x4 at four Ohms and 450x4 at 2 Ohms, this amp features 8 AWG speaker outputs. This amp is more than ready to run a massive multi-speaker door setup in even the loudest competition vehicle.

With the WXA3600.1 you get two additional accessories for ultimate control: a dedicated Bass Knob and a feature-filled Diagnostic Display. The Display is your real-time status center, including voltage (including max hold for hi/lo), amp temperature, power supply protection, and speaker current overload.

NEW FOR 24

ST-SERIES PA-STYLE MIDRANGE SPEAKERS

Made with KICKER's signature square design, the ST "Street"-Series is perfect for competition-level SPL systems. Engineered to be loud and exceptionally clear, our ST-Series of midbass/midrange PA drivers are perfect for balancing the instruments and voices with large, high-output subwoofers in your system.

Armed with extraordinarily smooth output across a wide acoustic range, these seven and nine-inch ST pro-audio drivers are voiced specifically for clear, clean music without harshness, even with extremely high output levels. Featuring pressed pulp cones, treated cloth surrounds and heavy ferrite magnets, the Street Series woofers deliver big volume with high sensitivity and up to 300 watts RMS* power handling.

ST9MR

ST3TW

ST-SERIES BULLET TWEETERS

You want clean, clear vocals – no matter how loud the bass is. KICKER's Street-Series Bullet Tweeters are the answer. Perfect for competition-level SPL systems, these tweeters deliver smooth, loud detail to cut through bass like a knife through butter.

Install them flush or use the included trim bezel to surface-mount almost anywhere! Field-replaceable rebuild kits available and sold separately.

POWER POINTS

- ▶ Custom-designed by KICKER engineers with extreme power handling and efficiency
- ▶ Made for competition-level SPL systems
- ▶ Tweeter uses horn-reinforced aluminum diaphragm for ultimate output
- ▶ Field-replaceable voice-coil assembly available for tweeter

▶ SUBWOOFERS

KICKER'S "LIVIN' LOUD" ATTITUDE LIVES IN EVERY SUBWOOFER WE MAKE. WITH OPTIONS RANGING FROM "FILL THE ACOUSTIC GAP" TO "THE NEIGHBORS ARE CALLING AGAIN" - WE DELIVER THE BASS YOU NEED, WITH THE SONIC ACCURACY YOU CRAVE.

L7S™ SOLO-BARIC PREMIUM SUBWOOFERS

The L7S™ is a cutting-edge, square-sub design from the award-winning Solo-Baric® line that is the most recognizable in the industry. The unique design ultimately means more cone area, more air displacement and more raw bass than a conventional round subwoofer.

The L7S handles huge power and provides extreme output. The dual-voice-coil terminals are satin nickel-plated and spring-loaded for an attractive, reliable connection to larger gauge wire. The heavy-duty ribbon tinsel leads take your amplifier's power through a semi-progressive spider to voice coils equipped with high-temp copper windings, engineered to handle intense heat easily while delivering extraordinary power levels. To dissipate any excess heat, KICKER's UniPlate™ back plate and pole piece represent a single, solid unit, allowing heat to move away from the motor. Venting below the spider allows air to move and heat to escape. KICKER engineers also utilized Forced-Air Cooling to help L7S run significantly cooler and last longer. The die-cast aluminum basket protects the efficient motor structure.

You want grace under pressure. With patented corner-ribs to minimize distortion and a blue-stitched Santoprene® surround helping to hold the massive cone structure in place, the L7S provides durability at high excursion without compromising sound quality.

In addition to the stable structure, the L7S revolves around KICKER's most advanced cone design, the injection-molded SoloKon™, which adds targeted strength for reliable performance and accurate response. The 360-degree, constant-contact back bracing adheres directly to every contour of the SoloKon square cone, maximizing the mechanical coupling of the motor while making the woofer as strong and responsive as possible.

POWER POINTS

- ▶ Patented square-cone technology for more bass than same-sized round sub
- ▶ Outstanding sound quality and high power handling
- ▶ Ultra-rigid, one-piece SoloKon™ with vented, 360-degree back bracing
- ▶ Blue signature stitching joins cone and surround for extreme durability

speaker size: in., cm . power handling: watts RMS . impedance: Ohms . Power handling assumes typical music program with minimal clipping; varies with enclosure size. See your KICKER dealer for complete details. Based on measurements of 2D models.

L7S™ SOLO-BARIC® LOADED ENCLOSURES

L7S™ Loaded Enclosures are a simple, powerful way to achieve award-winning bass in your vehicle. Three models – dual, single standard and single thin-profile cabinets are custom matched to the legendary L7S square subwoofers, and vented for maximum bass.

Inside every enclosure is our patented L7S square sub. With an average of 20 percent more cone area than a similarly sized circular sub, the vS moves more air to create more bass with every note it plays.

The thick MDF enclosures are designed with drastically rounded corners and heavy internal bracing for unmatched strength. The enclosure is then covered in plush black carpeting with custom embroidery for that unique KICKER look.

- POWER POINTS**
- ▶ Award-winning, deep bass with staggering power handling
 - ▶ Patented square-cone technology for more bass than same-sized round sub
 - ▶ Dual, single, and thin-profile, all vented and 2 Ohm

speaker size: in . cm . power handling: watts RMS . impedance: Ohms . Power handling assumes typical music program with minimal clipping; varies with enclosure size. See your KICKER dealer for complete details. Based on measurements of 20 models.

L7R™ SOLO-BARIC® SQUARE SUBWOOFERS

Get up to 20% more cone area than a similarly sized round sub with the L7R. The signature red stitching binds the ribbed Santoprene surround to the injection-molded SoloKon™ cone for added strength, while 360-degree back bracing keeps the entire cone strong and stable for smooth, distortion-free bass.

The L7R's powerful motor delivers big bass, while utilizing next-level thermal management for optimal performance. The UniPlate™ solid pole piece and backplate construction ensure the sub stays cool, even under extreme power loads. The T-shaped top plate dissipates heat while allowing for additional excursion and smoother top-end acoustic performance. Forced-Air Cooling is also used to help L7R run cooler and last longer. Dual voice coils come standard on all models to get the most out of any amplifier.

POWER POINTS

- ▶ Patented square-cone technology for more bass than same-sized round sub
- ▶ Next-level thermal management and Forced-Air Cooling ensure the sub remains cool
- ▶ Red signature stitching binds ribbed Santoprene® surround to cone for durability

L7R™ SOLO-BARIC LOADED ENCLOSURES

Solo-Baric L7R™ Loaded Enclosures are the perfect plug-and-play solution for your truck, SUV or sedan. Choose the thunderous 1,200-watt, dual 12-inch sub enclosure or one of three versatile single-sub models, all loaded with genuine L7R Square Subwoofers.

KICKER's square-sub technology gives you up to 20 percent more cone area than a same-sized round driver. Combined with KICKER's patented ribbed corners, UniPlate™ solid pole piece and backplate and injection-molded SoloKon™ cone, you move more air and get more distortion-free bass – with the most innovative sub in the industry.

The Solo-Baric 12 dual 12-inch subwoofer enclosure delivers thunderous square-sub power with patented KICKER innovation, engineered in our Stillwater, Oklahoma headquarters. The single-sub VL7R10 and VL7R12 feature a trapezoidal profile, made to fit snugly against the back seats in your trunk. Truck owners will especially love the fit of the flat-backed TL7R10. You get more bass with zero wasted space. The L7R ports are designed to deliver smooth, powerful low bass at any volume.

All L7R enclosures are engineered with extensive internal bracing, thick MDF construction and rounded corners. The KICKER logo is custom embroidered on thick black carpet for protection that lasts. Serious bass never looked – or sounded – this good!

L7T™ SOLO-BARIC ULTRA-THIN SUBWOOFERS

The thinnest square sub KICKER has ever invented, the Solo-Baric L7T™ still features a cone that pushes 20 percent more air than a same-sized round subwoofer, resulting in more bass. It also features the largest voice coil and magnet we've ever integrated into a thin sub. The extended top-plate has a patented "bumped" design, allowing extra excursion and longer throw for deeper overall bass, no matter the compromising space where it's installed.

KICKER's UniPlate™ combines the pole piece and back plate to make a single, seamless unit that pulls any damaging heat away from the sub. Forced-Air Cooling and perimeter venting™ is also used above the top plate, bringing additional cooling air in and around the motor.

SoloKon™ technology uses an injection-molded polypropylene cone and 360-degree back bracing as a single solid unit, both cooling the motor and ultimately eliminating distortion. Patented ribbed corners are incorporated into the high roll Santoprene® surround to move smoothly under high SPL. We then stitch the cone to the surround, providing an additional level of integrity that thrives anywhere you install it. The L7T is ready for years of use!

We never cut corners! Thin-mount and ruthless, KICKER's L7T square subwoofer delivers more bass than its round counterpart, while fitting where only a thin driver will do.

POWER POINTS

- ▶ Shallow-mount driver with true subwoofer performance
- ▶ Patented square-cone technology for more bass than same-sized round sub
- ▶ Rigid SoloKon™ cone with 360-degree back bracing

speaker size: in, cm . power handling: watts RMS . impedance: Ohms . Power handling assumes typical music program with minimal clipping; varies with enclosure size. See your KICKER dealer for complete details. Based on measurements of 20 models.

DUAL L7T TRUCK-SPECIFIC ENCLOSURES

KICKER Dual L7T Truck Enclosures are a perfect, form-fitting solution for select versions of the Ford® F-150, Chevy® Silverado®, GMC® Sierra® and RAM®. A single two-ohm terminal connects the drivers to your KICKER amplifier. Two L7T thin subwoofers deliver the thunder in these heavily braced MDF enclosures delivering up to 1,200 watts RMS.

Thick black carpeting protects the enclosures, and custom grilles protect the upfiring KRDL7T (RAM). The KFDL7T (Ford) and KGMDL7T (Chevy/GMC) downfire into the floor, safe from loose objects and active feet. You may barely see these stealthy enclosures – but you'll definitely hear them.

POWER POINTS

- ▶ Form-fitting design for F-150/Silverado/Sierra/RAM
- ▶ High power handling
- ▶ Design completely protects subwoofers

L7TDF™ DOWN-FIRING SOLO-BARIC LOADED ENCLOSURES

L7T Down-Firing Loaded Enclosures are ultra-thin, square subwoofers, made to pound out the low notes without taking up the cargo space you need. Equipped with a L7T Solo-Baric sub, the down-firing enclosure effortlessly fits under the seat, in your trunk or in your cargo area. No grille needed!

The L7T thin sub is ready to rock! KICKER signature square sub-design technology uses 20 percent more cone than comparable round subwoofers, moving more air and producing more bass in the same space!

POWER POINTS

- ▶ Deep bass in a small space
- ▶ Fitment under many truck seats
- ▶ Down-firing design and tough enclosure resists stacking weight
- ▶ Square L7T sub design is louder than round subs
- ▶ Forced-Air Cooling for high power handling and durability

speaker size: in, cm . power handling: watts RMS . impedance: Ohms . Power handling assumes typical music program with minimal clipping; varies with enclosure size. See your KICKER dealer for complete details. Based on measurements of 2Ω models.

FORCED-AIR COOLING

L7T™ SOLO-BARIC ULTRA-THIN ENCLOSURES

L7T Loaded Enclosures deliver incredible bass in a surprisingly small space, thanks to the revolutionary design of the L7T thin subwoofer.

All L7T subwoofers feature a Santoprene surround and patented ribbed corners, made to deliver distortion-free bass while resisting heat and degradation. Our exclusive SoloKon cone with 360-degree back bracing gives you a smooth, accurate response. The UniPlate solid pole piece, back-plate construction and Forced-Air Cooling ensure the sub stays cool for a long play life.

Featuring extensive internal bracing, thick MDF construction and custom embroidery, the custom shape fits the contours of your ride. Mount it under or behind a seat – TL7T loaded enclosures deliver that deep, loud bass you love!

- POWER POINTS**
- ▶ Less than eight inches deep
 - ▶ Extensive internal bracing
 - ▶ Thick black carpet with custom embroidery

HIDEAWAY® POWERED SUBWOOFERS

Our legendary subwoofer technology continues to lead the way for clear-sounding, ground-pounding bass in a vehicle, and it's incorporated into our Hideaway Compact Powered Subwoofers. It also represents a CES Innovation Award for design and engineering from the brand that knows bass.

The Hideaway, now adding a refined 10-inch subwoofer to the popular mix along with the ground-breaking 8-inch, delivers surprising low-frequency output from remarkably small enclosures, setting a new standard in compact convenience and bass performance in a vehicle.

Sitting barely three inches high and nearly 14 inches wide, the Hideaway combines a powerful amplifier and custom, ultra-thin subwoofer to add thumping bass to any vehicle's sound from the tightest locations. It also provides a convenient, quick-connect Molex® plug and harness that includes power, signal and remote turn-on.

Hideaway powered subwoofers come ready with a remote bass control for fine-tuning bass levels, adjustable low-pass crossover, variable 6dB bass boost, 180° phase switch for max output and two automatic turn-on options. They also feature high- and low-level inputs for integration with nearly any factory or aftermarket head unit. The HS10 adds start/stop compatibility as part of its FIT+™ (Fail-safe Integration Technology-Plus) feature for the latest models of vehicles.

POWER POINTS

- ▶ Ultra-compact powered subwoofer designed for the tightest locations
- ▶ HS10 180-watt mono amp and 10-inch sub; HS8 150-watt mono amp and 8-inch sub
- ▶ Easy bass solution with quick-connect Molex harness (power, signal and remote turn-on)

speaker size: in, cm . power handling: watts RMS . impedance: Ohms . Power handling assumes typical music program with minimal clipping; varies with enclosure size. See your KICKER dealer for complete details. Based on measurements of 4Q models.

COMPQ™ AUDIOPHILE SQL SUBWOOFERS

KICKER continues its Q-Class product line with another distinguished bass driver – one that retains the traditional shape of a subwoofer but brings a payload of preeminent engineering and expertise from an industry leader of over 50 years. The CompQ™ Subwoofer delivers on all of the power and performance expected from KICKER's supreme round woofer.

CompQ's motor efficiency features computer-optimized, oversized voice coils for the most power handling ever (RMS) from a round KICKER subwoofer. Immense magnets administer the most accurate voice-coil control, using long, low-carbon extended poles for the greatest control and power handling. This solid, non-vented pole piece also provides high mass for optimal cooling during continued use. The non-magnetic, die-cast aluminum alloy basket adds to the efficient motor structure and superior alignment.

All components are engineered to perform flawlessly under the stresses of high excursion. Large-diameter, progressive-roll spiders maintain precise control during high excursion. Heavy-duty ribbon-wire speaker leads intertwine with the spider for the best reliability. The injection molded SoloKon™ cone delivers on target, accurate response, and the stitched, large-roll ribbed Santoprene® surround expands and contracts for max control at high excursion. A 360-degree cone brace is laser-etched for the superior bond strength, minimizing flex and ultimately - distortion.

Installers will rely upon high-capacity, dual push terminals to grip 8-gauge wiring for extreme current flow, all from one side of the frame for easy setup. Included front screw-hole covers hide all mounting hardware for a clean-looking, complete installation.

POWER POINTS

- ▶ KICKER's premium round subwoofer
- ▶ Massive magnets and extended poles for maximum motor strength
- ▶ Die-cast-aluminum alloy basket
- ▶ Forced-air cooling for increased power handling & reliability

speaker size: in, cm . power handling: watts RMS . impedance: Ohms . Power handling assumes typical music program with minimal clipping; varies with enclosure size. See your KICKER dealer for complete details. Based on measurements of 20 models.

KICKER POWER METER

FORCED-AIR COOLING

CompQ

A SOLID SOLOKON™ CONE PROVIDES THE RIGIDITY YOU NEED FOR THE MOST ACCURATE BASS REPRODUCTION KICKER HAS EVER ENGINEERED.

BLUE LACE™ SPIDER CREATES A STRONG LINEAR SUSPENSION FOR THE CONE AND BINDS THE TINSEL LEADS TO ELIMINATE ANY UNNECESSARY MOVEMENT.

COMPVX™ HIGH-POWER SUBWOOFERS

For superior sound quality and high power handling, the CompVX™ is the answer. The CompVX features extraordinary thermal management, multiple wiring options and KICKER's unique speaker technology to deliver outstanding bass reproduction without distortion.

Subwoofers love power, but hate heat. KICKER engineered several technologies to keep the CompVX as cool as your music, even with the volume turned up to eleven! Dual voice coils with high-temp copper windings easily handle intense heat.

Forced-Air Cooling pushes hot air away from the voice coil, then pulls cooler air in to lower the operating temperature of the motor by up to 20%. The cast-aluminum basket features motor-cooling perimeter venting, and a solid, extended pole piece increases heat dissipation while improving acoustic performance. It's a powerful thermal management system that is uniquely KICKER.

The recipe for accurate sound is a stiff cone and linear movement. An ultra-rigid SoloKon™ cone with 360-degree back bracing provides strong, accurate bass, and a ribbed Santoprene® surround is stitched for toughness. The semi-progressive roll spider supports both substantial excursion and linear movement for the loudest bass with the lowest distortion.

POWER POINTS

- ▶ Exceptional power handling
- ▶ Ultra-rigid, one-piece SoloKon™ with vented back bracing
- ▶ Cast-aluminum basket with motor-cooling perimeter venting
- ▶ Blue double stitching joins cone and surround
- ▶ Forced-air cooling for increased reliability

speaker size: in, cm . power handling: watts RMS . impedance: Ohms . Power handling assumes typical music program with minimal clipping; varies with enclosure size. See your KICKER dealer for complete details. Based on measurements of 2Ω models.

COMPR[®] ADVANCED SUBWOOFERS

CompR Subwoofer technology is built to last, delivering stunning amounts of bass every time you press play. Its advanced suspension system includes a ribbed Santoprene[®] surround and a large-diameter spider for distortion-free sound. It also features a strong, stamped-steel framework supporting a huge stacked magnet structure for excellent power handling and sound quality.

Play it harder, for longer! Introducing KICKER's Forced-Air Cooling system. This innovative system uses the woofer's own cone movement to route even more air through the CompR's motor, forcing unwanted heat out of vents built into the backplate, and allowing the sub to run 25 percent cooler than before. You get the bass you love, the sleek look you want and the reliability you need.

The CompR delivers the deepest musical bass and is made to work perfectly with KICKER mono amplifiers. The motor structure itself is a mechanical marvel, utilizing a large-diameter, progressive-roll spider for increased linearity and better sound with high-strength Spiralead[™] tinsel leads woven through for max transfer of signal. High-temp coil wire winding around the UniPlate[™] pole piece and engineered backplate vents contribute to the woofer's efficient cooling attributes and durability.

CompR features the SoloKon[™] cone system, an injection-molded polypropylene cone, tough surround and 360-degree back bracing for ultra-rigidity and minimal distortion. The steel basket provides full protection of the large spider and complete motor assembly. While the basket fully protects the inner workings, its mounting depth has been minimized to easily fit into more installations than ever before.

POWER POINTS

- ▶ Rigid SoloKon[™] cone system with 360-degree bracing
- ▶ Tough Santoprene[®] surround and full-coverage steel basket
- ▶ Forced-Air Cooling for excellent reliability
- ▶ Sleek, blacked-out cosmetics with signature red stitching

TB-SERIES COMPACT WEATHERPROOF SYSTEMS

Great bass mounts anywhere with the KICKER TB! Built from thick ABS, the TB comes equipped with our active CompR woofer. This sub features a double-stacked magnet, an advanced suspension and advanced heat management system.

Made with the same surround and cone materials as the active sub, the ReFLEX subwoofer is mounted on the opposite side of the TB for even deeper excursion with a small footprint.

Our signature double red stitching creates an outstanding bond between the Santoprene surround and polypropylene woofer cone for reliable performance.

Revolutionary SoloKon™ technology joins the cone to the vented back brace - both cooling the motor and eliminating distortion for clean, smooth bass.

An innovative bracketing system allows the TB to be mounted horizontally or vertically in nearly any vehicle.

- POWER POINTS**
- ▶ Combines active CompR® sub with passive ReFLEX sub for outstanding bass
 - ▶ Thick, cylindrical ABS enclosure protects woofers loaded on each end
 - ▶ Innovative bracketing system allows horizontal or vertical mounting

COMPR[®] LOADED SUBWOOFER ENCLOSURES

The CompR Subwoofer Enclosure delivers on the promise of thunderous bass. Sporting a sleek set of cosmetic updates and covered in plush carpet with the signature KICKER logo, there's no doubt that your box and sound are uniquely KICKER.

The magic in big bass rests not just in the subs, but in the box! Thanks to outstanding enclosure construction and a revolutionary port design, the legendary CompR sub box pounds out the low end with authority! Black carpeting gives the enclosure a refined look while the front-facing tuned port raises the bar for acoustic efficiency, creating unheard of bass levels. The single 12-inch version has been enlarged for more output, and even deeper bass!

Thick MDF and copious internal bracing ensures the CompR enclosure is as solid as it is reliable. Combined with the quality and power handling of the new CompR subs, you get one of the most formidable loaded enclosures on the market today.

COMPRT[®] ULTRA-THIN SUBWOOFERS

CompRT Subwoofers have the thinnest mounting depths available from the world's bass leader, suitable for the trickiest installations. It's true, deep bass that's made to fit where conventional-sized subwoofers don't – now with a sleek, blacked-out look.

KICKER CompRT subwoofers are engineered to deliver serious bottom end, even where space is limited. Whether behind the seat, in a compact car or in a motorcycle's saddlebags, make no mistake - signature KICKER bass is on board!

The CompRT utilizes a large-diameter, progressive-roll spider for increased linearity and better overall sound quality. A bumped top plate allows for full voice-coil clearance and excursion, creating outstanding bass. The high-temp, voice-coil wire windings surround the high-mass, solid pole piece for excellent thermal management.

KICKER's Forced-Air Cooling contributes to the woofer's efficiency and durability, allowing the subwoofer to run over 20 percent cooler. As a result, CompRTs have one of the highest power ratings of any thin sub on the market.

The CompRT features an injection-molded polypropylene cone and tough Santoprene surround that interlocks with the front gasket for ultra-rigidity and minimal distortion. The basket provides full protection of the motor assembly, and with the interlocking surround and gasket, helps the weather-resistant subwoofer perform perfectly in outdoor powersports settings.

The subwoofer features dual, spring-loaded wire terminals that are custom-designed specifically for the basket, so the subwoofer can retain its shallow mounting capability.

POWER POINTS

- ▶ Shallow-mount, true-sub performance; 2 or 4-Ohm DVC
- ▶ Inverted-bump top plate for full excursion with minimal mounting depth
- ▶ High-mass, solid pole piece and Forced-Air Cooling for excellent reliability
- ▶ Distinct blacked-out look with signature red surround stitching

speaker size: in., cm. power handling: watts RMS. impedance: Ohms. Power handling assumes typical music program with minimal clipping; varies with enclosure size. See your KICKER dealer for complete details. Based on measurements of 4Q models.

COMPRT® THIN LOADED ENCLOSURES

Bass has never been this loud and deep in a box this thin. Using revolutionary ReFLEX™ subwoofer technology and advanced enclosure construction, KICKER has developed the perfect box for fitting behind or under your seat.

CompRT Enclosures sport an extremely thin profile, and include heavy internal bracing for exceptional rigidity and ReFLEX™ passive sub technology for extending the low-end response. KICKER has added Forced-Air Cooling that contributes to the woofer's efficiency and durability, allowing the subwoofer to run more than 20 percent cooler. The subwoofers now feature a sleek, blacked-out look with KICKER's signature red stitching on the cone.

The refined look of CompRT Enclosures include a custom-embroidered KICKER logo, all black carpeting and satin-nickel terminals. CompRT enclosures come in an array of sizes, ranging from the mighty-mite 6-3/4-inch to the big-boss 12-inch TCWRT12 in a 2-Ohm load. Mount them behind your seat, or even under it!

COMPVR[®] HARD-HITTING SUBWOOFERS

Hard-hitting bass is your passion. Dual voice coils, huge magnets and excellent heat management give you the massive boom that lasts day in and day out.

KICKER's most popular subwoofer is the CompVR, and it features a new refined blackout look, sinister double red surround stitching and 360-degree perimeter venting. Our SoloKon™ cone system combines the injection-molded poly cone with a motor-cooling, vented back brace, creating a single integrated unit. Dual voice coils, high-temp coil wire, ribbed Santoprene® surround and durable Spiralead™ tinsel leads woven into the spider are part of the equation for an outstanding combination of raw power handling, thermal management and long-lasting reliability that embodies the KICKER sound.

POWER POINTS

- ▶ Signature double red surround stitching holds tight to cone
- ▶ Injection-molded cone with 360-degree back bracing
- ▶ 360-degree backplate venting expels damaging heat

speaker size: in, cm . power handling: watts RMS . impedance: Ohms . Power handling assumes typical music program with minimal clipping; varies with enclosure size. See your KICKER dealer for complete details. Based on measurements of 4Q models.

COMPVR[®] HARD-HITTING LOADED ENCLOSURES

We brought it back! The CompVR Loaded Enclosures handle up to 1600 watts of RMS power! As tough as they are refined, the KICKER-engineered enclosures are optimized to get every drop of bass out of our most popular subwoofer.

Covered in a thick black carpet and adorned with an embroidered KICKER logo, each enclosure features a front-facing tuned port and a single 2-Ohm terminal. Inside the enclosure, thick bracing was used to add extraordinary strength and rigidity.

As in most KICKER woofers, the innovative SoloKon™ combines the injection-molded poly cone with a motor-cooling, one-piece back brace, creating a single integrated unit. A ribbed Santoprene surround and durable Spiralead™ tinsel leads are part of the equation for long-lasting reliability that embodies the KICKER sound.

- POWER POINTS**
- ▶ Front-facing tuned port
 - ▶ Optimized enclosure with heavy internal bracing
 - ▶ Perfect for hatchbacks, SUVs or your trunk

speaker size: in, cm . power handling: watts RMS . impedance: Ohms . Power handling assumes typical music program with minimal clipping; varies with enclosure size. See your KICKER dealer for complete details. Based on measurements of 2Q models.

COMPVT™ SLIM SUBWOOFERS

The CompVT fits nearly anywhere while delivering the bass only KICKER can provide. Whether it's under a truck seat, behind a bench or in the trunk, you get that boom you've been craving.

This thin-profile woofer combines a sleek blackout look with full-perimeter venting and red surround stitching. Our SoloKon™ technology marries the injection-molded poly cone to a vented back brace, creating a single, cohesive system. A shallow-depth, four-piece voice coil and high-mass, ventless pole piece provide outstanding heat dissipation and stunning bass. All of this innovation comes in a subwoofer less than five inches deep.

POWER POINTS

- ▶ Shallow-mount design for tightest installs; 2- or 4-Ohm SVC
- ▶ Signature red-stitched surround
- ▶ Injection-molded, spoked cone with 360-degree back bracing

speaker size: in, cm . power handling: watts RMS . impedance: Ohms . Power handling assumes typical music program with minimal clipping; varies with enclosure size. See your KICKER dealer for complete details. Based on measurements of 4Ω models.

COMPVT[®] DOWN-FIRING SLIM ENCLOSURES

The CompVT Down-Firing Sub Enclosure is the perfect combination of affordability and convenience. The enclosures are equipped with a slim-line CompVT subwoofer, pre-wired to two Ohms.

With stout internal bracing on the inside and thick carpet outside, the CompVT sealed 10- and 12-inch subwoofers are loud and tough – made to deliver the pounding bass you want without filling up your trunk.

- POWER POINTS**
- ▶ Tough, low profile design resists stacking weight
 - ▶ Reinforced cabinet with acoustic damping
 - ▶ Rugged carpeting with embroidered logo

COMP C[®]

PERFORMANCE SUBWOOFERS

KICKER offers the greatest balance between big performance and bigger value with single and dual voice coil CompC[®] Subwoofers. Equipped with proven KICKER construction, these subs deliver world class power handling for the hard-hitting, high-performance bass you love.

Available in single and dual voice-coil 4-ohm impedances, CompC Subwoofers easily accommodate 2, 4 or 8-Ohm load configurations for maximum system flexibility. Spring-loaded terminals make connections easy, even with 12 AWG speaker wire. You get the very most out of your amplifier with the right impedance for the biggest bass possible.

CompC Subwoofers are based on the success of KICKER's legendary Competition Series. Designed to eliminate flex and distortion for a deep, accurate sound, these subwoofers come equipped with a lightweight, injection-molded polypropylene cone and tough, ribbed polyurethane surround. Our signature yellow stitching creates a superior bond between the woofer and surround for extraordinary reliability.

The heavy-duty motor structure includes a rip-resistant, large-diameter spider for less stress, longer life, and superior accuracy. High-strength Spiralead™ tinsel leads weave through the spider for max signal transfer, then high-temp voice coil wire winding completes a powerful Comp motor that makes the most of every watt you give it.

The stamped-steel basket shows off the heavy-duty magnet and top plate. A cool subwoofer is a loud subwoofer, so the basket includes Forced-Air Cooling and custom perimeter venting slots placed along the bottom of the basket. These features ensure the woofer stays at the perfect operating

- POWER POINTS**
- ▶ Sounds great in sealed or ported enclosures
 - ▶ Forced-Air Cooling for increased durability
 - ▶ Models with dual or single 4 ohm voice coils

speaker size: in. cm . power handling: watts RMS . impedance: Ohms Power handling assumes typical music program with minimal clipping; varies with enclosure size. See your KICKER dealer for complete details. Based on measurements of 4Q models.

COMPC[®] PERFORMANCE LOADED ENCLOSURES

High-performance CompC[®] Loaded Enclosures are factory-tuned with an optimized port to bring you loud, great-sounding bass. Whether it's a thin-mount, single or dual-subwoofer design, CompC Loaded Enclosures provide intense bass at a great value.

CompC[®] Loaded Enclosures are ready-made KICKER bass that installs in minutes. Equipped with proven box construction and an impressive bold look, the 10-and 12-inch dual sub enclosures offer a pair of CompC woofers in a stout MDF box with rounded corners and internal bracing for additional strength and rigidity. A single 12-inch subwoofer is available for under a back hatch, and the 10-inch thin-profile enclosure is perfect for behind the seat or wherever space limitations exist. All enclosures are covered in plush, black carpeting with a custom embroidered KICKER logo.

CompC Subwoofers build on the success of KICKER's original Competition Series from 1986. They are equipped with a lightweight, injection-molded polypropylene cone and tough, ribbed polyurethane surround built to eliminate flex and distortion. Simply place this powerhouse behind a seat, under a bench, or in your trunk, and start Livin' Loud!

POWER POINTS

- ▶ Factory-tuned with front-facing port for loudest bass
- ▶ Ribbed Polyurethane surround and yellow stitching
- ▶ Two dual subwoofer options (2 Ohm), one single subwoofer (2-4 Ohm) and one thin-profile subwoofer (2 or 4 Ohm)

speaker size: in, cm . power handling: watts RMS . impedance: Ohms . Power handling assumes typical music program with minimal clipping; varies with enclosure size. See your KICKER dealer for complete details. Based on measurements of 2-D models.

COMP[®] SUBWOOFERS

Comp Subwoofers are loud, proud and affordable. And reliable. A Comp's heavy-duty magnet delivers precise frequency control, and its bumped back plate allows extended voice-coil range for even deeper bass. The high-temp voice coil is built for durability, even when exposed to extreme heat.

Signature white stitching creates a superior bond between the cone and surround, and the ribbed, UV-treated surround itself helps provide a strong outlet for distortion-free bass. Comp is the cornerstone of KICKER innovation – Spiralead™ tinsel leads, poly cones with 360-degree back bracing and perimeter venting all included.

POWER POINTS

- ▶ Deep bass from a stiff injection-molded cone with back bracing
- ▶ Perimeter venting for sufficient cooling and extended use
- ▶ Quality stamped-steel basket for outstanding stability under stress

speaker size: in., cm . power handling: watts RMS . impedance: Ohms . Power handling assumes typical music program with minimal clipping; varies with enclosure size. See your KICKER dealer for complete details. Based on measurements of 4Ω models.

▶ GRILLES & SPEAKER RINGS

PROTECTION AND STYLE MADE PERFECTLY FOR YOUR KICKER SUBS AND SPEAKERS

LED SQUARE SUB GRILLES

LED Square (10 and 12 inch only) – Protect your L7s in style! A duo of grille finishes (charcoal/white) and seven awesome LED colors create a mood as unique as you are. (fits L7S / L7R / L7T)

STAR SQUARE SUB GRILLES

Star Square (fits L7S / L7R / L7T) - Square grilles accessorize and protect your subwoofers. Constructed from powder-coated aluminum.

STAR ROUND SUB GRILLES

Star Round (fits CompVX / CompVR / CompVT / Comp) - Classic "star" round-sub grilles fit almost all models of KICKER classic round woofers.

COMPR ROUND SUB GRILLES

CompR (fits CompR / CompRT / CompC) – Your CompR subs are covered by stylish grilles with thick ABS plastic construction and custom bolt-hole covers.

KLSR[®] LED SPEAKER RINGS

Light up the night with these multi-color LED rings! Easily mountable behind your speakers or subwoofers, these round, weatherproof, half-inch spacer rings come equipped with seven standard color options.

Expand your palette to 20 colors and 19 lighting modes with the optional KMLC LED Remote Controller (sold separately).

POWER POINTS

- ▶ Add custom accent LEDs to your audio system
- ▶ Perfect for your vehicle, boat or UTV
- ▶ Adjust the color to fit your theme

KLSR12:	SIZE: 12, 30	TYPE: SINGLE
KLSR10:	SIZE: 10, 25	TYPE: SINGLE
KLSR8:	SIZE: 8, 20	TYPE: PAIR
KLSR65:	SIZE: 6.5, 16	TYPE: PAIR

20 POSSIBLE COLORS AND 19 MODES*

*using the KMLC LED Controller (sold separately)

KICKER SPEAKERS ARE MADE TO DELIVER INCREDIBLE SONIC ACCURACY AND CONCERT-LEVEL VOLUME. MADE TO FIT SEAMLESSLY IN NEARLY EVERY VEHICLE ON THE ROAD TODAY, THESE DRIVERS DON'T JUST FIT YOUR RIDE. THEY FIT YOUR LIFE.

QS-SERIES PREMIUM MATCHED COMPONENT SYSTEMS

When it comes to pure, absolute mobile audio, the QS-Series Matched Component System stands alone. No blend of high- and mid-frequencies in any vehicle compares. Stunning midrange drivers, tonally precise tweeters and a superior crossover network come together to form a musical fusion unlike any other on the road.

“These are the best sounding KICKER speakers,” said KICKER President Steve Irby. “(QS) has the most extended low bass, the smoothest high frequencies and the most dynamic performance.”

The QS-Series is made available as two system packs – the QSS67 featuring a pair of 6-3/4-inch (165mm) woofers and the QSS65 with 6-1/2-inch (160mm) woofers. Each system includes large 1-3/16-inch (30mm) tweeters considered among the industry’s finest, and cast-aluminum crossovers designed specifically for exceptional audio.

QS midrange woofers emphasize a cutting-edge Tri-Tech™ cone, a straight efficient cone that consists of a woven carbon-poly facing, an ultra-rigid foam core, and a second carbon-poly backing sandwiched together for maximum internal damping and unrivaled sound. Tri-Tech works with a variably-thick surround to furnish increased cone area, volume and efficiency. The lightweight voice coil, made up of copper-clad aluminum wire densely wound for peak power handling, provides minimum mass for maximum efficiency. It’s wrapped around a T-cut pole piece and copper shorting ring to provide smooth frequency response with negligible harmonic distortion. Finally, a dual-wave spider and woven-in, spiral tinsel leads work inside a cast-aluminum basket with gold-plated terminals large enough to accept 12-gauge wire.

KICKER’s patented, high-performance QS tweeters employ DuPont® Teton® domes, dual neodymium magnets and large back enclosures to re-create a wide range of high frequencies. They feature multiple mounting options, including flush, angled, ring or coaxial, the latter that allows an installer to remove the bullet-shaped, aluminum phase plugs from the woofers’ centers and screw in special adapters for the tweeters.

The crossovers are bi-amplification capable and utilize Mylar® capacitors, high-powered resistors and audiophile-grade air-core inductors for producing ultimate sound in a mobile system. Reliable, output-level jumpers are used for the most desirable match of tweeters with woofers.

POWER POINTS

- ▶ Audiophile-quality component set for demanding listeners
- ▶ Three-layer Tri-Tech™ woofer cones in cast-aluminum baskets
- ▶ 30mm DuPont® Teton®-domed tweeters
- ▶ Crossovers bi-amp capable with Mylar® capacitors and high-powered resistors

speaker size: in., mm., power handling: watts RMS, frequency response in Hz. Power handling assumes typical music program with minimal clipping. See your KICKER dealer for complete details. Based on measurements of 4Ω models.

KSS 3-WAY COMPONENT SYSTEMS

Midbass, midrange, and tweeter – the audiophile’s preference for decades debuts in the KICKER lineup as a drop-in solution, compatible with select models of GM, Ford, Chrysler, Jeep, Dodge, and more.

Internally dampened polypropylene cones deliver a smooth, rich sound that is true to what the artist intended, even at concert-level volume. Rubber surrounds are used to resist the harsh heat and humidity typical in an automotive environment. An ultra-thin design and optimized in-line crossover network allow for superior sound quality and a perfect fit in an effortless installation. The silk-dome tweeter includes three adapter options using factory mounting locations.

POWER POINTS

- ▶ Audiophile-quality sound
- ▶ Drop-in installation
- ▶ Slimline three-way crossover system included

speaker size: in . cm . power handling: watts PEAK/RMS . impedance: Ohms . Power handling assumes typical music program with minimal clipping; varies with enclosure size. See your KICKER dealer for complete details. Based on measurements of 4Ω models.

KSS269 **2-WAY COMPONENT SYSTEM** **WITH MID-TWEETERS**

The KSS269 2-Way Component System features 2-3/4" mid-tweeters with 6 x 9" woofers for a perfect fit in select GM®, Ford®, Chrysler® and select Asian import models. Included with the KSS269 is a trio of adapter rings, allowing the speaker to drop-in fit in any factory 2-3/4" or 3-1/2" location without modifications.

An easily mountable crossover network is included – convenient in-line crossovers that provide versatile fitment in most any door or dash location.

POWER POINTS

- ▶ Matched component-system upgrade brilliantly replaces factory sound
- ▶ Size pairing (6x9" with 2-3/4") to fit many vehicle models
- ▶ Superior mid-bass response and accurate musical reproduction

speaker size: in, cm . power handling: watts PEAK/RMS . impedance: Ohms . Power handling assumes typical music program with minimal clipping; varies with enclosure size. See your KICKER dealer for complete details. Based on measurements of 40 models.

KSS269

KS-SERIES HIGH-POWER COMPONENT SYSTEMS

KS-Series Component Systems are stunning and accurate upgrades with extraordinary mounting flexibility. Powerful magnets and EVC™ (Extended Voice-Coil) technology give you deep, smooth bass with flexible mounting options to let you experience your music as a true component system with separate tweeters, or even as a high-end coaxial system. You get superior sound quality and outstanding power handling, no matter what music you play.

All five sizes of KS-Series Component Systems easily convert to a coaxial configuration. The woofers' removable, bullet-style phase plug is replaced with a special adapter, allowing the 25mm silk-dome tweeters to rotate and tilt. You get more system design options and superior off-axis performance.

Mounting a tweeter in the perfect location just got easier. In addition to the coaxial options, you can surface-mount the tweeter, angle it in a custom direction, or use the articulating tweeter pod to get the perfect imaging and soundstage you need.

An easily mountable crossover network is included with every KS system. Now under four inches wide and one inch tall, these crossovers fit nearly anywhere and include a three-position tweeter attenuation switch for dialing in high frequencies. A sophisticated incandescent protection circuit (IPC) is also included to protect against excessive power or distortion to the tweeter.

All KS-Series woofers feature an ultra-slim mounting depth to easily fit in most factory speaker locations. The high-performance woofers utilize internally dampened polypropylene cones and tough rubber surrounds for outstanding midrange detail and pounding bass.

KSS650

POWER POINTS

- ▶ Re-voiced for improved smoothness and overall sound quality
- ▶ Smaller crossover makes installation even easier
- ▶ Flexible mounting options for the silk-dome tweeter

speaker size: in. cm - power handling: watts PEAK/RMS - impedance: Ohms - Power handling assumes typical music program with minimal clipping; varies with enclosure size. See your KICKER dealer for complete details. Based on measurements of 4Q models.

CS-SERIES PERFORMANCE COMPONENT SYSTEMS

Our CS-Series Component Systems are designed for easy installation in nearly any vehicle with legendary KICKER performance and durability. The smooth midranges and impactful highs complete an outstanding musical experience in any vehicle, without tapping new holes or interfering with the window mechanism. KICKER achieves this with reduced woofer mounting depth and a smaller footprint on its two-way crossovers. New steel-mesh grilles always prevent outer damage to your drivers.

Easily customize your sound with a smooth 12dB/octaveslope and three-position, tweeter adjustment (0dB/+3dB/+6dB), included in each crossover. The optimized footprint means great sound with hassle-free installation, no matter where you mount it!

Superb woofer design guarantees a significant upgrade in sound from a dull factory speaker system. Phase plugs eliminate distortion for utmost clarity and accuracy. Reliable, heavy-duty motor structures deliver remarkable bass response and the smoothest midrange using sturdy polypropylene cones, ribbed UV-treated surrounds and EVC™ (Extended Voice Coil) technology. The result is precise linear excursion with stunning musical realism. Use the flush, angled or surface-mount tweeter pods to perfect your imaging with a sophisticated new look.

POWER POINTS

- ▶ Factory upgrade and performance at a great price
- ▶ Optimized woofer magnet size to fit nearly every car made
- ▶ Three tweeter mounting options for a proper acoustic direction

speaker size: in, cm . power handling: watts PEAK/RMS . impedance: Ohms Power handling assumes typical music program with minimal clipping; varies with enclosure size. See your KICKER dealer for complete details. Based on measurements of 4Ω models.

KS-SERIES HIGH-POWER COAXIAL DRIVERS AND 3-WAY

KS-Series Speakers are a serious upgrade from factory speakers. KS-Series Speakers now have mostly zero (some minimal) tweeter protrusion for a perfect fit in almost every vehicle on the road today. KICKER combines high power handling with outstanding sonic performance, and the KS-Series gives you the kind of high output and dynamic sound you expect from the leader in mobile audio.

KICKER KS-Series Coaxials let you play at concert-like volume, yet maintain the smoothness and subtlety to please even the most selective ear. Internally dampened polypropylene cones and durable rubber surrounds assist the woofers in creating precise midrange and bass, while high-quality silk-dome tweeters deliver natural, detailed highs.

KICKER makes great sound easy to install, even in the most modern vehicles. Featuring zero or minimal tweeter protrusion and a thin-profile woofer design, KS-Series Coaxial Speakers easily fit behind almost any factory grille, without interfering with factory-door components. The tweeters also include a beneficial auto-reset, poly-switch to offer protection from excessive power and distortion.

Added to the lineup, the KSC270 comes with three custom bracketing options, built specifically to fit in today's GM®, Chrysler®, Subaru®, Toyota® and Jeep® factory speaker locations.

KSC6930 3-Way Speakers have a robust, 1-inch (25mm) silk midrange driver and 20mm silk tweeter for even better sonic detail and zero tweeter protrusion for an aftermarket sound behind factory grilles.

POWER POINTS

- ▶ Preferred upgrade over factory sound
- ▶ Fits most all vehicles
- ▶ Superior bass response and accurate musical reproduction
- ▶ Silk-dome tweeters for smooth, detailed sound

Speaker size: in, cm . power handling: watts PEAK/RMS . impedance: Ohms . Power handling assumes typical music program with minimal clipping; varies with enclosure size. See your KICKER dealer for complete details. Based on measurements of 4Ω models.

KSC50 COAXIAL GRILLES

If you like your KICKER 5.25-inch Coaxial Speakers to have some protection while looking good, these grilles are for you!
(sold separately)

CS-SERIES PERFORMANCE COAXIALS & 3-WAY

By drastically reducing the mounting depth, CS-Series Coaxial and Three-Way Speakers will fit in nearly every make and model of vehicle on the road today. The CS-Series design also features near-zero tweeter protrusion, so your speakers fit perfectly behind factory grilles. This simple, drop-in solution delivers acclaimed KICKER performance and durability with outstanding value, while its steel-mesh grilles (shipped with as needed) protect your speakers with a unique style.

CS-Series Coaxials deliver remarkable performance and ultra-clean bass with a heavy-duty motor/magnet structure not found in stock speakers. EVC™ (Extended Voice Coil) technology, polypropylene cones and tough, UV-treated surrounds provide precise linear excursion and outstanding reliability, even in high heat and direct sunlight. Lightweight, 13mm poly-imide dome tweeters offer superb clarity and volume, helping each coaxial pair provide substantially higher power and superior sound over factory drivers.

The rugged 6x9-inch, 3-way speaker is especially cool. With a massive 450-watt peak power rating, this triaxial driver gives you extraordinary volume, while the integrated 2-inch midrange driver and dedicated tweeter give you crisp, accurate details for the realism you crave.

CSC67

POWER POINTS

- ▶ Reduced-depth baskets fit nearly every car made
- ▶ EVC™ (Extended Voice Coil) in woofers for deeper bass
- ▶ Zero-protrusion tweeters (most models) allow use of factory grilles

speaker size: in, cm . power handling: watts PEAK/RMS . impedance: Ohms Power handling assumes typical music program with minimal clipping; varies with enclosure size. See your KICKER dealer for complete details. Based on measurements of 4Ω models.

DS-SERIES COAXIALS & 3-WAY

DS-Series thin-profile coaxial speakers fit perfectly in your factory speaker location. The midrange woofer's stiff, UV-treated polypropylene cones and acoustic-foam ribbed surrounds provide optimal performance that lasts for years.

DS-Series coaxials boast a universal fit in nearly every vehicle on the road today. A zero-protrusion tweeter behind the grilles makes for an easy installation. They feature EVC™ (Extended Voice Coil) for increased acoustic range.

- POWER POINTS**
- ▶ Drop-in coaxial upgrade over factory sound
 - ▶ Designed to fit virtually every make and model of vehicle
 - ▶ Acclaimed KICKER performance and durability

speaker size: in, cm . power handling: watts PEAK/RMS . impedance: Ohms; Power handling assumes typical music program with minimal clipping; varies with enclosure size. See your KICKER dealer for complete details. Based on measurements of 40 models.

KSMT DUAL-POD COMPONENT SYSTEM

The KSMT Dual-Pod Component System provides a stunningly realistic sound, properly elevated soundstage and phenomenal imaging. This system doesn't just elevate the soundstage; by being mounted on the dash or A-pillars, your ears are naturally "on axis" with the speakers. You get the the best possible clarity and perfect phasing, with no reflections off the windshield.

The component system uses a pair of KICKER KS-Series one-inch, silk-dome tweeters, sitting on top of neo-powered, 2.5-inch midranges inside tuned enclosures. Mounted on a secure ball-joint positioning system and independently adjustable tweeter pod, the KSMT can be easily moved to the ideal spot in your vehicle. Install this self-enclosed system nearly anywhere on your A-pillar or dash - in any position you need - for a completely customized fit.

Equipped with precise acoustic control, the tweeter has an 18dB crossover while the midrange has a dedicated 6dB bandpass crossover. The resulting tonality is as precise and natural as the artist intended - and exactly as it should be.

POWER POINTS

- ▶ Mid/tweeter pod elevates soundstage for superior imaging
- ▶ Secure ball-joint base tilts and rotates for precise positioning
- ▶ On-axis design provides excellent staging
- ▶ Mounts on A-pillar or dash
- ▶ Lightweight, powerful neodymium motor structures on both drivers

speaker size: in, cm . power handling: watts PEAK/RMS . impedance: Ohms . Power handling assumes typical music program with minimal clipping; varies with enclosure size. See your KICKER dealer for complete details. Based on measurements of 4Q models.

KSMT2504

KS-SERIES SILK-DOME TWEETERS

Upgrading to the high-performance KS-Series Tweeters brings your soundstage to life. The 1-inch (25mm) KST250 Tweeters and the 3/4-inch (20mm) KST200 both utilize extremely lightweight neodymium magnets and a silk-dome composition for the smoothest, most natural sound and precise high-frequency response.

The in-line, 12dB/octave crossover makes your install simpler with nothing additional to mount. They allow high-pass frequencies from 4500Hz (KST200) or 3500Hz (KST250), with a poly-switch to protect against excessive power and distortion.

KS-Series Tweeters can be mounted in any one of three styles: flush, angled or the highly flexible and recommended swivel surface-mount pods. You get the look you need with the realism you crave.

KS Tweeters feature the innovative surface-mount pod option with swivel mount, that's sure to please. Mounted on a highly flexible ball joint, easily position the pod to the exact location you want for the best possible imaging!

POWER POINTS

- ▶ Angle/Flush, and now Pod-mounting options for excellent imaging
- ▶ High-frequency drivers with natural highs and extended frequency range
- ▶ Lightweight neodymium magnets and smooth-sounding silk domes

speaker size: in, cm . power handling: watts PEAK/RMS . impedance: Ohms . Power handling assumes typical music program with minimal clipping. See your KICKER dealer for complete details. Based on measurements of 4Ω models.

KST200:	TWEETER: 3/4, 20	POWER: 125/65	FREQ: 4.5k-21k
KST250:	TWEETER: 1, 25	POWER: 150/75	FREQ: 3.5k-21k

CS-SERIES TWEETERS

Replace dull factory highs with CS-Series Tweeters. Neodymium magnets and titanium domes reveal every detail of your music, even when used with a factory audio system. A 6dB/octave inline crossover ensures only the proper frequencies are sent to the drivers, and a built-in poly-switch protector gives you peace of mind at those higher volumes you love.

A complete acoustic upgrade in a single box, the 20mm tweeters are optimized to fit any vehicle with a flush, surface and angled mounting kit included. Getting a custom look to go with your custom sound has never been easier.

- POWER POINTS**
- ▶ High-frequency upgrade for dull factory tweeters
 - ▶ Lightweight neodymium magnets and titanium domes
 - ▶ Three mounting options for a proper acoustic direction and look

speaker size: in, mm . power handling: watts PEAK/RMS . frequency response in Hz. Power handling assumes typical music program with minimal clipping. See your KICKER dealer for complete details.

▶ AMPLIFIERS

KICKER AMPLIFIERS ARE THE MARRIAGE OF PURE POWER AND SPACE-AGE INNOVATION. THE MOST FLEXIBLE, INTELLIGENT AMPS ON THE PLANET HAVE ONE NAME ON THEM: KICKER.

**RAISE YOUR EXPECTATION.
RAISE YOUR AWARENESS.
RAISE YOUR SOUND.
RAISE YOUR GAME.**

KEY
TECHNOLOGY

AFFORDABLE KEY TECHNOLOGY REPRESENTS A COMPLETELY REVOLUTIONARY APPROACH TO ACHIEVING BETTER SOUND IN NEARLY ANY VEHICLE.

ONCE INSTALLED, KEY BEGINS ITS COMPREHENSIVE, AUTOMATED CALIBRATION AND DIGITAL SIGNAL PROCESSING, DELIVERING GREATLY IMPROVED VOLUME, SOUND QUALITY AND REALISM TO YOUR VEHICLE IN A MATTER OF MINUTES.

KEY TECHNOLOGY REPRESENTS THE ONLY PRODUCTS YOU'LL EVER NEED FOR A HIGH-END STEREO SOUND IN YOUR VEHICLE.

MAKE NO MISTAKE, ACOUSTIC UPGRADES TO A FACTORY SYSTEM ALLOW FOR STUNNING IMPROVEMENT TO YOUR SOUND, BUT KEY ITSELF CREATES AMAZING CHANGES ON A MODEST BUDGET.

**UNLOCK SOUND
THE KEY HAS ARRIVED**

KEY200.4

AUTO-EQ SMART AMPLIFIER

Packed with 200 watts of power (RMS), the KEY200.4 is a revolution in audio processing. The KEY200.4 uses a powerful DSP with proprietary algorithms* and included microphone to independently adjust all four channels of output, refining every aspect of your sound. Starting with 40 independent bands of equalization, the KEY will also automatically set crossover points, adjust output levels and correct the time alignment for a dramatic improvement in realism and soundstage - all with a press of a single button.

Measuring under eight inches long and two inches high, the KEY fits nearly anywhere. The amplifier also features FIT2™ (Fail-safe Integration Technology), providing compatibility with nearly every stock and aftermarket radio on the road today. The KEY is also fully compatible with vehicles using start/stop systems!

If the temperature reaches the threshold, the KEY's dynamic power management algorithms kick into gear! Instead of hearing the amplifier's volume "pumping," or blowing a fuse - the KEY engages a nearly inaudible limiter/compressor, applied only to the peaks of the music for as little as milliseconds at a time. The amplifier quickly cools, which deactivates the compressor. Music returns to its full dynamic range without a moment's interruption!

POWER POINTS

- ▶ AI-driven DSP independently auto-corrects all four channels
- ▶ Bi-Amp capable
- ▶ Fully compatible with vehicles using start/stop systems

all power listed in watts per channel . dimensions in in, cm

MULTI-CHANNEL

KEY200.4: POWER 4Ω STEREO: 50x4 H: 1-11/16, 4.3 W: 2-3/4, 7 L: 7-3/8, 18.7

- ▶ Adjustable 24 dB Crossover
- ▶ Selectable Auto Turn-On
- ▶ Bi-Amp Turn-On Selector
- ▶ Defeatable Fader, Time Delay and KickerEQ

▶ KickerEQ Activation Switch

- ▶ Calibration Microphone Included
- ▶ Microphone Placement Strap included

- ▶ The KEY200.4 Smart Amp features:
- ▶ ASP™ (Automated Signal Processing of sound system)
- ▶ POD™ (Power On-Demand supply in vehicle sound system)
- ▶ ACP™ (Anti-Clipping Protection in vehicle sound system)

DON'T JUST MAKE YOUR SYSTEM LOUDER - MAKE IT CLEARER. MAKE IT BETTER... PRESS THE SELECTOR, AND THE MICROPHONE GOES TO WORK. THE KEY USES A POWERFUL INTERNAL COMPUTER TO DELIVER DRAMATIC IMPROVEMENTS IN REALISM AND SOUNDSTAGE. A MASSIVE 40-BAND EQUALIZER IMPROVES TONALITY, AND A 24DB CROSSOVER RE-DEFINES THE CAPABILITIES OF EACH SPEAKER.

THE CONCERT QUALITY OF YOUR FACTORY STEREO IS REVEALED! WHAT WOULD TAKE HOURS FOR A PROFESSIONAL TO ACHIEVE HAPPENS IN A MATTER OF MINUTES. ALL AUTOMATICALLY. ALL WITH THE PRESS OF A SINGLE BUTTON. FIND FREE TEST TONES UNDER SUPPORT ON KICKER.COM FOR EASY SETUP!

KEY500.1

MONO SMART AMPLIFIER

The KEY500.1 is a smart subwoofer amplifier with auto-equalization that delivers smooth, powerful bass to an aftermarket subwoofer at any volume level! Using KICKER's supplied test-tone signal, the KEY automatically analyzes the audio being fed into the amplifier. Once this signal has been analyzed, the KEY500.1 will flatten the signal coming in and restore the low bass that is typically missing from many factory signal sources. In a matter of moments, you get a clean, even bass response!

The KEY500.1 amplifier's miniscule footprint allows for easy installation under a seat or even behind the glove box. Easily identifiable controls for 24dB subsonic and low-pass crossovers, bass boost and gain make tuning the amp easy.

The amplifier also features FIT2+™ (Fail-safe Integration Technology) – which provides nearly universal compatibility with stock or aftermarket radios. Another industry first, the KEY500.1 is uniquely suited to accept factory input signals as high as 40 volts (400 watts). Together, these technologies ensure the KEY amplifier will work with almost every car on the road today whether you have a factory or aftermarket audio system.

- POWER POINTS**
- ▶ Compact design mounts nearly anywhere
 - ▶ AI-driven DSP improves bass response at any volume level
 - ▶ Fully compatible with vehicles using start/stop systems

all power listed in watts per channel . dimensions in in, cm

MAKE YOUR SYSTEM LOUDER. MAKE IT CLEANER. MAKE IT BETTER.

KEYLOC™ SMART LINE-OUT CONVERTER

The KICKER KEYLOC™ is a revolutionary line-out converter that quickly corrects EQ and imaging issues in the vehicle – no oscilloscope or RTA necessary. When connected to the speaker output leads, it will auto-detect the frequency range of the signal, taking the guesswork out of the installation in a matter of minutes.

In today's sophisticated vehicles, it is common for factory audio systems to fail to carry a full-range signal on every speaker wire, if at all. The KEYLOC uses a free test tone (found at KICKER.com/support) and clearly marked LEDs to identify what frequency ranges are present, making it quick and easy to identify whether Hi-, Mid-, Lo-, or All-Pass is coming from a particular pair of speaker wires. This innovative LED system eliminates the need for expensive measuring equipment like oscilloscopes or real-time analyzers (mandatory equipment prior to the invention of the KEYLOC) to determine the frequency range of any speaker signal.

The KEYLOC uses auto-signal detecting (and optionally defeating) of the "All-Pass" filter built into many modern vehicles. By defeating this filter, the KEYLOC instantly counteracts the factory time delay, allowing the installer to tune for one-seat audio or maintain the factory imaging.

Using KICKER's FIT2+™ (Fail-safe Integration Technology), the KEYLOC has the most versatile input sensitivity in the car-audio aftermarket. Ranging from 125 mV-10 V (Lo) or 1V-40 V (Hi), the KEYLOC is prepared to work with nearly every vehicle on the road today.

A DC offset defeat switch is also included, allowing the user to choose remote power from the DC offset of the speaker wires, or from a switched power source. The wiring harness also includes a pair of stereo RCA outputs that delivers as much as 10 volts to the amplifier, as well as a dedicated remote turn-on lead to activate the aftermarket amp.

POWER POINTS

- ▶ Quickly determine the frequency range of any speaker output
- ▶ Easily defeat the factory time delay and all-pass filter
- ▶ Switched 12v turn-on output included

Rated Output per channel (1KHz @ 14.4V, ≤ 1% THD+N): 10V

CX-SERIES PERFORMANCE AMPLIFIERS

CX-Series Amps are the perfect combination of power and reliability, thanks to a rare combination of high-grade internal components and KICKER's in-house engineering team.

CX-Series Multi-Channel Amps raise the bar with 65 watts of power at four Ohms and 90 at two Ohms. The versatile CXA660.5 5-channel amplifier also includes a dedicated sub channel, capable of 300 watts of bass at two Ohms.

CX Amplifiers feature FIT+™ (Fail-safe Integration Technology-PLUS) for outstanding noise rejection, two independent turn-on modes and up to 40 volts (400 watts) of speaker-level input signal compatibility.

Mono CX Amplifiers are one-Ohm stable. We've added even more power and flexibility to the most recent versions of the CXA400.1 and CXA800.1, working with more vehicles, providing you more options, and delivering max power at a 1 Ohm load.

The CX family of amplifiers all come with a high-mass heat sink with optimized thermal management and integrated UV protection for long life in direct sunlight. CX Amps also come with double-sided fiberglass circuit boards, litz-wound transformers that minimize power loss and maximize transfer, TO218 output devices for high-current switching, pass-through RCA outputs on mono amps, noise-shielding metal-end panels, custom-tooled power connectors and oversized MOSFETs. Users can also take advantage of built-in 12dB crossovers and adjustable KicEQ™ processing to dial in the perfect sound. A 3-second delay eliminates turn-on/turn-off pop and auto-reset protection are some of the other features utilized.

All this innovation works together to create uncompromising, relentless power with incredible clarity. It's the attention to detail that makes CX Amplifiers some of the most reliable, high-performing power in the industry.

POWER POINTS

- ▶ All mono models 1 Ohm stable
- ▶ FIT+™ (Fail-safe Integration Tech-PLUS) accepts output from nearly any source
- ▶ Vertical mount option for space-challenged installs

OUR AMPLIFIERS COME LOADED WITH FIT+™ (FAIL-SAFE INTEGRATION TECHNOLOGY-PLUS), ADVANCED CIRCUITRY FOR SUPERIOR POWER, CLARITY AND DEPENDABILITY. FIT+ USES LAB-GRADE, BALANCED DIFFERENTIAL INPUTS TO PROVIDE THE BEST POSSIBLE NOISE REJECTION, HIGH- AND LOW-LEVEL INPUT CAPABILITY AND THE ACCEPTANCE OF OUTPUT FROM VIRTUALLY ANY FACTORY OR AFTERMARKET SOURCE. FIT+ IS ALSO RESPONSIBLE FOR CONVENIENT, AUTOMATIC TURN-ON MODES (DC OFFSET OR 12V REMOTE). WITH ALL OF THE ADDITIONAL NOISE FROM COMPUTERS, A/V ENTERTAINMENT AND OTHER ELECTRONICS, FIT+ MAKES FOR THE QUIETEST OPERATION POSSIBLE.

KPX COMPACT AMPLIFIERS

Tons of power in a tiny, weatherproof package! KPX Amplifiers are specially designed to big power in a little footprint. Hide these amps under a seat, behind a kick panel or even under the dash! Flexible, built-in crossovers allow you to craft the sound with precision while ensuring long speaker life.

KICKER's weatherproof KPX amplifiers are engineered with that perfect fit in mind. To ensure our amps work with most any radio, these amplifiers can accept signals as low as 125 millivolts and as high as 40 volts, delivering 75 watts per channel x 4 at 2 ohms (KPX300.4) or 500 watts into one ohm (KPX500.1). Add the optional CXARC for remote bass control (KPX500.1).

POWER POINTS

- ▶ Ideal for hot rods, UTVs, motorcycles or other space-challenged vehicles
- ▶ Highly efficient Class-D technology in a small, lightweight amp
- ▶ One-ohm stable (KPX.1) & high full-range power at 4 ohms (KPX.4)

speaker size: in, cm. power handling: watts PEAK/RMS. impedance: Ohms. Power handling assumes typical music program with minimal clipping. See your KICKER dealer for complete details. Based on measurements of 4Ω models.

PXA WATERPROOF AMPLIFIERS

KICKER's waterproof PXA Amplifiers are compact, tough, and powerful. The entire PXA line is both IP66* and IP67** certified, making them totally impervious to the elements. Take the roof down and go!

PXA multi-channel amps deliver the tons of power at 2 or 4-Ohm loads, offering you the wiring flexibility you need and the fidelity you love. Pair them with KICKER components, subwoofers, and speakers for a solid system that always sounds incredible!

PXA amplifiers include no-rust, stainless-steel mounting hardware and a pair of shielded in-line, solderless, and crimpless couplers for power and ground. PXA amps utilize an amplified, speaker-level input or low-level preamp input, variable-input gain adjustment and two auto turn-on modes (DC offset or 12-volt trigger). The PXA-Series monoblock amplifiers include a 24dB/octave subsonic filter fixed at 25 hertz, and 1-ohm stability.

KICKER ACCESSORIES DELIVER WITH USEFUL FEATURES AND ADDED DETAILS THAT ANY INSTALLER WILL APPRECIATE. FULL-SPEC, HYPER-FLEX™ WIRE, POWER KITS THAT INCLUDE ALL THE NECESSARY COMPONENTS AND AUTOMOTIVE-GRADE BRASS HARDWARE THAT FOCUSES ON USER-FRIENDLY DESIGN— ALL PRACTICAL TOOLS ANY INSTALLER NEEDS TO GET THE JOB DONE.

FULL-SPEC COMPLETE POWER KITS

- ▶ KICKER top-quality, Hyper-Flex™ power, ground and turn-on
- ▶ High-performance K-Series speaker wire and interconnects in ultra-compact, easy-to-use design
- ▶ Heavy-duty AFS fuse holder and fuses featuring K-Mount™ for screws or zip ties
- ▶ Convenient kit includes terminals, spade and ground lugs, zip ties – all the details
- ▶ One additional year of KICKER amplifier warranty if purchased with the amp

CK8: GAUGE: 8AWG TYPE: 2-channel
CK4: GAUGE: 4AWG TYPE: 2-channel

Complete Kits include:

- 12GA Q-Series speaker wire (12 ft.)
- K-Series 2-channel interconnects (5m)
- Frost-blue power cable (17 ft.)
- Ring terminal for blue cable
- Black braid tube on blue cable (4 ft.)
- 4 shrink tubes with KICKER logo for braid tube
- Frost-gray power cable (4 ft.)
- Ring terminal and logo shrink tube
- Clear-PVC remote wire (17 ft.)
- FHS AFS fuse holder (4/8GA)
- AFS fuse (100A or 60A)
- 18GA red vinyl butt splice
- 6 black cable ties (6 inch)
- Grommets, ground lug with washer

FULL-SPEC V-SERIES COMPLETE POWER KITS

- ▶ Features 6AWG and 8AWG, top-quality Hyper-Flex™ power, ground and turn-on cables
- ▶ K-Series speaker wire and dual-injection 2-ch. interconnects also included
- ▶ AFS fuse holder and 80A AFS fuse (6AWG) or 60A AFS fuse (8AWG)
- ▶ Insulated crimp connectors and zip ties
- ▶ One additional year of amp warranty is included if purchased with a KICKER amp

VK8: GAUGE: 8AWG TYPE: 2-channel
VK6: GAUGE: 6AWG TYPE: 2-channel

Complete Kits include:

- 16GA yellow/gray speaker wire (14 ft.)
- 2-channel, dual-injection interconnects (16 ft.)
- Matte red power cable (16.5 ft.)
- Ring terminal for red cable
- Nylon mesh loom on red cable (6 ft.)
- Matte black power cable (2.5 ft.)
- Ring terminal for black cable
- Blue remote wire (19 ft.)
- MANL fuse holder (6/8GA)
- Nickel-plated MANL fuse (80A or 60A)
- 2 seamed crimp spade terminals (red/blk)
- 18-22GA red vinyl butt connector
- 2 18-22GA spade connectors (gray/blk)
- 6 black cable ties (4 inch)
- Snap bushing grommet

FULL-SPEC POWER KITS

- ▶ Innovative Hyper-Flex™ power, ground, turn-on and inline AFS fuse holder
- ▶ Wire constructed of tinned, oxygen-free copper for max signal transfer
- ▶ All connectors and zip ties needed to complete the job
- ▶ One additional year of KICKER amplifier warranty if purchased with the amp

PK8: GAUGE: 8AWG
PK4: GAUGE: 4AWG

Power Kits include:

- Frost-blue power cable (17 ft.)
- Ring terminal for blue cable
- Black braid tube on blue cable (4 ft.)
- 4 shrink tubes with KICKER logo for braid tube
- Frost-gray power cable (4 ft.)
- Ring terminal and logo shrink tube
- Clear-PVC remote wire (17 ft.)
- FHS AFS fuse holder (4/8GA)
- AFS fuse (100A or 60A)
- 18GA red vinyl butt splice
- 6 black cable ties (6 inch)
- Grommets, ground lug with washer

PK8

Q-SERIES INTERCONNECT CABLE

- ▶ High-end, sophisticated signal cable for long-term, trouble-free connections
- ▶ K-Grip™ connectors offer sure grip and compact size for slip-free installation
- ▶ K-Grip features heavy-duty, proprietary-machined metal ends with rubber grips
- ▶ Large K-cut collars and split center pins provide the most contact and max signal transfer
- ▶ K-Grip line union ultra-slim for snag-free cable routing in tight places
- ▶ Integrated AR™ foil shield over tightly twisted wire eliminates radiated noise by up to 9dB
- ▶ Rugged braided jacket over foil shield offers further wire protection

QI24

K-SERIES INTERCONNECT CABLE

- ▶ Split-pin RCAs with silver-tinned, OFC wire for superior bass response and signal clarity
- ▶ K-Grip™ dual-mold connectors offer sure grip and ergonomically shaped for slip-free installation
- ▶ K-Grip line union ultra-slim for snag-free cable routing in tight places
- ▶ KIYFM kit includes 2 Y-cables (1 female/2 male) and 6 custom adapters (4 F/F and 2 M/M)
- ▶ KISL features 16ga speaker wire-to-RCAs and includes F/F adapters – no extra parts needed

KIYFM

POWER WIRE

- ▶ Spools of full-spec, multi-strand OFC wire covered in virgin PVC
- ▶ Cobalt blue and gun-metal gray Hyper-Flex™ insulation for ultimate bend and twist
- ▶ Super-flexible under hot or cold temperature extremes
- ▶ Top-quality construction

DUAL-AMP FULL-SPEC POWER KITS

- ▶ Extra cable lengths and accessories for a larger system
- ▶ Innovative KICKER Hyper-Flex™ power, ground and turn-on
- ▶ Heavy-duty AFS fuse holders and fuses
- ▶ All connectors and zip ties needed to complete the job
- ▶ One additional year of KICKER amplifier warranty if purchased with the amp

PKD4: GAUGE: 4AWG
PKD1: GAUGE: 1/0AWG

PKD4

Dual-Amp Power Kits include:

- Frost-blue power cable (17 ft.)
- Ring terminal for blue cable
- Black braid tube on blue cable (4 ft.)
- 4 shrink tubes with KICKER logo for braid tube
- Frost-blue power cable (4 ft.)
- Frost-gray power cable (4 ft.)
- 2 ring terminals and logo shrink tubes for gray cable
- Frost-gray power cable (3 ft.) – PKD1 only
- Ring terminal for gray cable – PKD1 only
- Shrink tube with KICKER logo – PKD1 only
- Clear-PVC remote wire (17 ft.)
- FHS AFS fuse holder (0/4 or 4/8GA)
- AFS fuse (200A or 100A)
- FHD dual AFS holder
- 2 AFS fuses for dual holder (100A) – PKD1
- 2 AFS fuses for dual holder (60 and 40A) – PKD4
- 22-18GA red vinyl butt splice
- 6 black cable ties (6 inch)
- Grommets, 2 ground lugs with washers

Q-SERIES SPEAKER WIRE

- ▶ Cleanest audio signal and long-term dependability from KICKER's high-end wire
- ▶ Tightly twisted, silver-tinned OFC wire (12AWG) eliminates noise
- ▶ Full-spec, Hyper-Flex wire can be identified by touch – frost-blue positive is protected by a square PVC jacket, frost-clear negative is round
- ▶ Wire available in bulk spool or by job (20 feet)

QW1220: GAUGE: 12AWG LENGTH: 20 ft
 QW12150: GAUGE: 12AWG LENGTH: 150 ft spool

QW12150

K-SERIES SPEAKER WIRE

- ▶ Reliable, classic 16AWG wire featuring noise-killing, tightly twisted OFC
- ▶ Silver-tinned, oxygen-free copper wire for superior bass response and signal clarity
- ▶ Full-spec, Hyper-Flex wire can be identified by touch – frost-blue positive is protected by a square PVC jacket, frost-clear negative is round
- ▶ Two wire sizes – bulk spool or by job

KW1620: GAUGE: 16AWG LENGTH: 20 ft
 KW16400: GAUGE: 16AWG LENGTH: 400 ft spool

KW16400

KM-SERIES SPEAKER/RGB COMBO WIRE

- ▶ Durable 16AWG and 18AWG speaker wire that withstand the elements
- ▶ Flexible, reliable PVC jacket surrounds superior, tightly twisted OFC
- ▶ 18AWG RGB LED wire
- ▶ 150-foot bulk spool
- ▶ MSRGB includes a true-white LED wire option

KMWRGB150: GAUGE: 16AWG LENGTH: 150 ft spool
 MSRGBW150: GAUGE: 18AWG LENGTH: 150 ft spool

BRASS ACCESSORIES

- ▶ All KICKER brass is smaller and more functional than ever, covering the details every installer can appreciate
- ▶ Uses Versa-Gauge™ connection points – oversized convex screws for rock-solid termination and secure connections
- ▶ Wire receptacles work with most size wire (1/0-8AWG or 4-8AWG) for clean, sharp install
- ▶ All brass uses stout 5mm screws so only a single wrench is required
- ▶ No-fail Battery Terminal includes a negative-post adapter collar that locks into place for tight grip and best connection
- ▶ Innovative Terminal comes with red and black fasteners for the tinted cover to match applications
- ▶ Terminal also includes convenient ∞Gauge™ side terminal for additional connection options and flexibility
- ▶ Fuse holders feature K-Mount™ two-stage mounting holes to accommodate screws or zip ties for added stability

BT4: USE: pos/neg battery terminal SIZE/TYPE: (2) 1/0-8AWG, (1) 4-8AWG
 DB4: USE: distribution block SIZE/TYPE: (2) 1/0-8AWG in, (4) 4-8AWG out
 FHS: USE: AFS fuse holder SIZE/TYPE: 1/0-8AWG in/out, single fuse
 FHD: USE: AFS fuse holder SIZE/TYPE: 1/0-8AWG in/out, dual fuse
 GT2: USE: ground termination block SIZE/TYPE: (2) 1/0-8AWG in

FUSES

- ▶ Automotive-grade, platinum-plated AFS fuses
- ▶ Consistently provides peak current demands and insures complete protection
- ▶ Two fuses per pack so there's always a spare

AFS60: POWER: 60 amp
 AFS80: POWER: 80 amp
 AFS100: POWER: 100 amp
 AFS200: POWER: 200 amp

▶ INTEGRATE

YOU WANT A GOOD SOUND SYSTEM IN YOUR RIDE, AND YOU SEEK A QUICK RESOLUTION THAT DOESN'T TAKE UP VALUABLE SPACE OR TRANSFORM YOUR INTERIOR. AND YOU WANT IT DIALED IN THE WAY YOU WANT TO HEAR IT. KICKER SIGNAL PROCESSORS PROVIDE AN INTENSE RESULT – TRUST US.

KISLOAD2 2CH./ KISLOAD4 4 CH. SMART RADIO INTERFACE

The first aftermarket solution of its kind, KICKER solves a problem common in newer vehicles with premium audio systems. When adding an aftermarket amplifier to these vehicles, a consistent load is required. The KICKER KISLOAD2 and KISLOAD4 prevent audio system shut-off by delivering the proper load to the source. Without that load, the stereo system may not turn on, or might shut off unexpectedly in vehicles such as the Jeep® JL and many modern Chrysler® models.

The KISLOAD4 accepts up to 100 watts (20 volts) of input signal from as many as four channels. It's the perfect solution for amplifying your door speakers, or creating a three-way system. The KISLOAD2 accepts up to 400 watts (40 volts) into two channels. This high-power solution is perfect for premium audio systems with a factory subwoofer or any stereo amplifier upgrade requiring a consistent load.

KISLOAD4

KISLOAD2

KISLOAD2

KISLOAD4

KISLOC2/KISLOC LINE-OUTPUT CONVERTERS

The KISLOC2 is designed without inductors, for a completely flat frequency response at all volume levels. This innovative LOC also provides a 12-volt remote wire – so you don't have to hunt for a switched 12-volt power source.

Using the DC offset present in factory speaker wires, the KISLOC2 automatically converts that energy into a powerful 100 milli-amp, 12-volt remote wire.

Its predecessor, the KISLOC, is the world's first micro surface-mount, line-output converter.

POWER POINTS

- ▶ KISLOC2 features a 12-volt remote wire; standard LOCs do not
- ▶ KISLOC2 provides a flat 20-20kHz frequency range at all volume levels
- ▶ A 60-Ohm smart load from KISLOC2 ensures compatibility with most smart radios and aftermarket amps

KISLOC2
